Becoming a member of the Society of Trust and Estate Practitioners (STEP) signifies acceptance in the world's leading organization for trust and estate professionals. Founded in 1991 and based in London, England, STEP Worldwide has more than 20,000 members in 95 countries.

STEP Canada, founded in 1998, has over 2,400 members with branches in Vancouver, Calgary, Edmonton, Winnipeg, Toronto, Ottawa, Montreal, the Atlantic region; and chapters in London & Southwestern Ontario, the Okanagan Valley, and Saskatchewan.

STEP is a multidisciplinary organization made up of the most experienced and senior practitioners in the field of trusts and estates, including lawyers, accountants, financial planners, insurance advisors and trust professionals. Members provide domestic and international advice on trusts and estates, including planning, administration and related tax issues.

They provide advice for an individual following their partner's death; ensuring elderly and vulnerable relatives are cared for; ensuring that a family business passes safely from one generation to another, and helping clients to support charitable causes in an effective way. STEP Canada provides its members with a high level of education, training, representation and networking.

TEP Designation

The Pinnacle of Professional Expertise

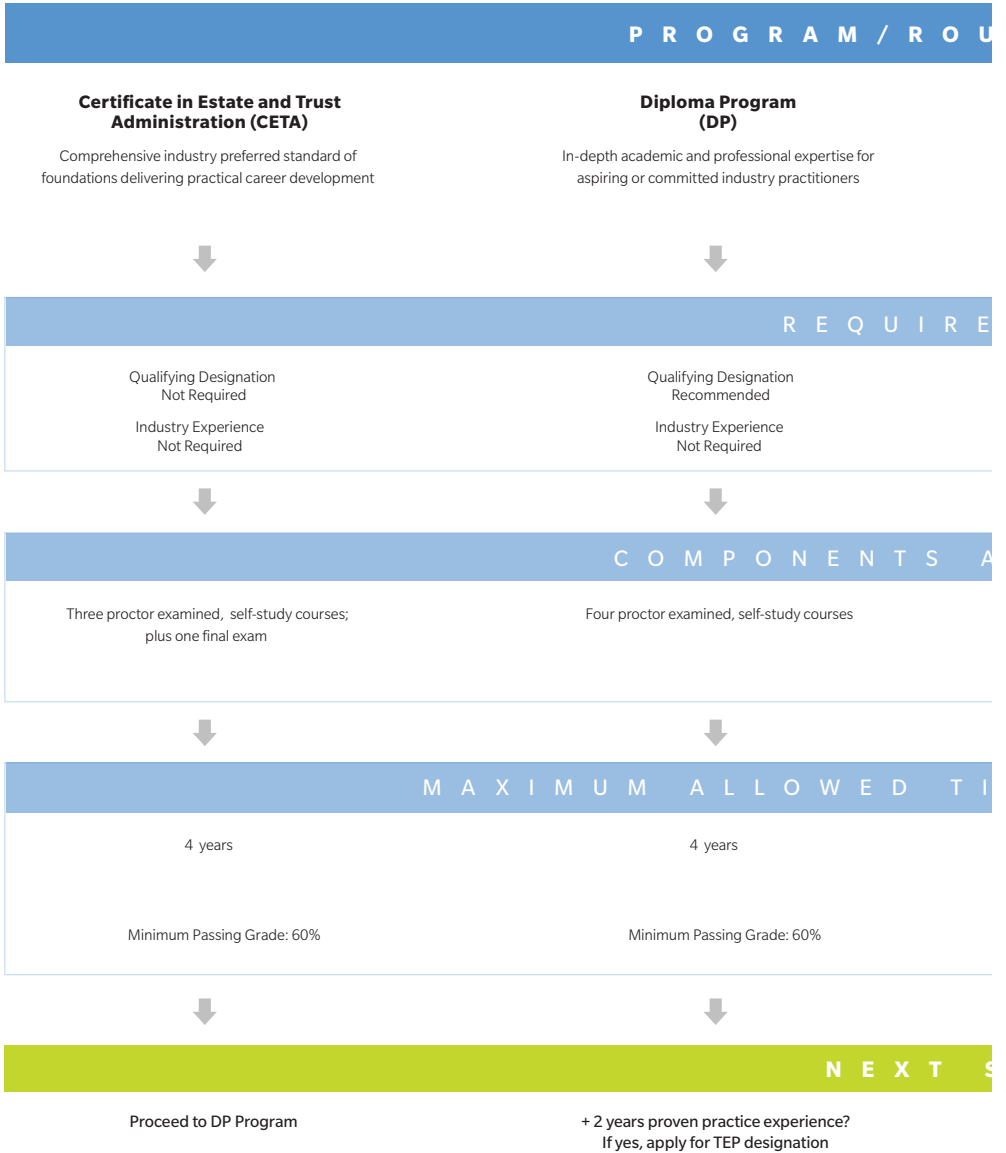

Full members of STEP hold the Trust and Estate Practitioner (TEP) designation, an internationally recognized hallmark of professional expertise in the area of trusts and estates. TEPs are the most senior practitioners in the field and are recognized as the experts to whom others turn for in-depth advice. The TEP designation signifies to your clients that you have specialized knowledge and education in the area of trust and estate planning.

Over the next two decades, 3.6 million Canadians are expected to leave a financial legacy, assigning an estimated \$1 trillion to their families and communities. A TEP designation positions you to provide advice during an unprecedented transfer of wealth from one generation to the next.

Increased competition in the field of trust and estates means it's more important than ever to differentiate yourself as an expert. A TEP designation stands out.

“ I am proud to have been associated since its inception with the Calgary branch of STEP. I have also been involved at the national level of STEP Canada for years. Membership in STEP, for me personally, has proved to be invaluable over the years given the tremendous worldwide membership that STEP has and the depth of knowledge of such members. For us here at Moodys Gartner, membership in STEP is like putting a hand in a glove...it's a natural fit. ”

“ STEP has provided me with tremendous learning opportunities and a network of informed colleagues. Having been involved in branch administration, national STEP committees, and various lobbying efforts, I can attest to the dedication of volunteers and staff and the high quality of STEP events. STEP's annual national conference, for example, is the best estate-planning conference in the country. I encourage everyone in the trusts and estates field to get involved. ”

“ In my role within a fee-only financial planning firm, estate planning is an important area of our practice. I am taking the STEP Diploma program so that I am better able to serve our clients' needs. Since joining STEP as a student member in 2009, the courses I took, together with the articles in the STEP Inside and STEP Journal magazines, proved valuable in expanding my knowledge of the trust and estate area. In turn, my day-to-day work reinforces the knowledge I gain in the courses and reading; this is truly a positive feedback loop! ”
